

Plastic dollies

An efficient and multifunctional logistic and display unit

A ready-to-sell unit

- Products can be transported directly from the supplier to the Point of Sales with minimum disturbance for customers.
- No handling equipment needed
- Eliminates extra costs and work associated with pallet handling and shelving in shops when used as a display unit

Ideal for promotion sales

- Durable products can be stocked and priced in advance
- The cardboard sleeve can be branded according to corporate image and product identity.

A flexible unit

- A versatile display which can be used for a variety of different products such as pasta, sugar, flour, diapers, washing powder, etc.
- The Dolly is multifunctional. It can be combined with crates, beverage trays as well as plastic or cardboard sleeves.

Easy warehousing

- Space efficient in return logistics in the warehouse
- Dollies can be stacked on each other and sleeves can be flat-packed.

The plastic dolly exists in two sizes: 600x800mm and 400x600mm.

Options

The plastic Dolly can be equipped of an RFID tag.
